Personal statement

I am a highly motivated and hardworking individual, who has recently completed High School Education, with excellent grades in Mathematics, languages and Sciences. I am seeking an apprenticeship in the Information Technology industry to build upon a keen scientific interest and start a career as a Mobile Application Developer and Web Developer. Eventual career goal is to become a fully-qualified and experienced Software Engineer thus assuming a role which allows me to take responsibility for developing websites, mobile applications, softwares and working systems for a well-respected and market-leading company. I am privileged with excellent leadership skills as well as proficiency in minute-taking and have good command of all Microsoft Office programs. I also have knowledge of HTML 5, Bootstrap, CSS, JavaScript, JQuery, PHP, MYSQL, Ajax, Angular Js, Java Programming, Android Programming and Python.

Key Skills

- Self-starter and Self-driven individual with a high level of commitment and dedication.
- Proficiency in HTML 5, Bootstrap, CSS, PHP, MYSQL, and JavaScript which are used to develop interactive websites.
- Strong leadership qualities and team player.
- Proficiency in all areas of Microsoft Office, including Access, Excel, Publisher, Word and PowerPoint.
- Excellent communication skills, both written and verbal.
- 40 words per minute typing.
